FILE HEADING.

Dewan Bahadur Raja Sabha Bhusana Mr. K. P. Puttanna chetty's Gift to the Victoria Hospital, Bangalore

From

The Senior Surgeon

G. No. 315 Dated 29.3.17. Received 30-3-17 / 2.4.

Diary No 2931	Enclos.	Spare Copies.	Serial No. 10

BRIEF ABSTRACT OF LETTER.

With reference to G.O. No. 1387-9/med 13-16-9 dated 17.8.16 forwards plans and estimates for Rs 46,575 for the Construction of the out-patients' dispensary of the Victoria hospital and states that possible alterations in the Style of the Structure may be effected in case it is necessary to reduce the cost of the building

NOTES AND ORDERS.

The Senior Surgeon states that the space provided in the ground plans does not admit of reduction. The point for orders is whether Govt are prepared to contribute the excess of the estimate over the amount offered by the donor. The usual

Vide 4th para G. Govt have shown willingness to C. Rs. 10,000

MK 18/5

6809
28.5.17

(8) The requirements of the out-patients' dispensary have been carefully considered by the Senior Surgeon and it may perhaps be not wise to curtail the accommodation required.

(9) I doubt very much if the block to be named after the donor can be kept distinct without materially altering the design. As Rajasabhabhushana Dewan Bahadur Mr. K.P. Puttanna Chetty has paid more than half the cost of the construction, I do not see why the Government should not permit the whole block to be named after him.

(10) From the site plan put up here, the propos block, if constructed on the site now selected

GPB—3,000—17-12-14

D. O. No. 5189 dated 5th September 1917 from the Dewan to the Private Secretary to His Highness the Maharaja of Mysore.

---oOo---

I submit for favour of His Highness' orders, the accompanying papers relating to the selection of sites for -

(1) a Town Hall and Municipal Office in Bangalore, and
(2) ~~and~~ an Out-patients' Dispensary to be attached to the Victoria Hospital.

2. It was at first intended to locate the first named building on the site on which the Bamboo Bazaar now stands. When Mr. Fritchley was here about a couple of months ago, he was requested to inspect and give his opinion. After inspection of the site in company with Dewan Bahadur Mr. K. P. Puttanna Chetty he has selected the site on which the Electrical Power Station (A) now stands. This involves the shifting of the (A) Station to a different locality. If his proposal is accepted, Mr. Puttanna Chetty requests the sanction of Government for obtaining detailed plans and estimates for the Town Hall and Municipal Office from Mr. Fritchley, on payment of a fee of 5 per cent on the total cost of the two buildings to the architect. The fee will include supervision charges during construction.

3. Independently of this proposal, Mr. Forbes, Chief - - - Electrical Engineer has, for the last 18 months, been working out a project for shifting the A Station to a place more central than the present one from the point of view of distribution circuits. The present station is reported to be considerably congested and overloaded and to require ~~xx~~ extension at an estimated cost of 2 lakhs even on its present site to meet the additional demand for power. The Chief Electrical Engineer anti-

cipates

anticipates that, by shifting the Station to the triangular bit of land opposite the old Sowar lines on the Subedar Chattram Road, a saving of about Rs. 25,000 can be affected by the - - better distribution circuits that will be secured. His letter dated the 16th August 1917 and the note dated 27th August 1917 by the Public Works Secretary fully explain the situation.

4. There seems therefore no objection to shift the Transformer House to the new site and make available the present one for the Town Hall and Municipal Office.

5. In regard to the out-patients' dispensary, Government have accepted a gift of Rs. 25,000 from Rajasabha Bushana Dewan Bahadur Mr. K. P. Puttanna Chetty and agreed to name the building after him as it was at first thought that this sum would suffice for the building. But the building is now estimated to cost about Rs. 47,000. As more than half the cost will be contributed by Mr. Puttanna Chetty, the Extraordinary Member is of opinion that the whole block may be named after him. As regards the site, Mr. Fritchley suggests the plot marked No. 5 on plan on vacant land just outside the compound of the Victoria Hospital and west of the Transformer House. This site seems to be open to objection as it will partly hide the view of the main Hospital building. The Extraordinary Member suggested the selection of a site which would be free from this objection. Accordingly, the Public Works Secretary was requested to suggest three or four alternative sites for the approval of Government. The accompanying plan shows the sites selected by him. As mentioned in his Note No. 432 dated 14th August 1917, Site No. 2 seems to be the best.

As the dispensary is to be an integral part of the hospital, it would be more appropriate to locate it within the compound. This will be also more convenient for supervision by the hospital authorities.

I shall now recapitulate the points on which orders are required:--

(1) The construction of the out-patients' dispensary at an estimated cost of about Rs. 47,000 to be named after Mr. K. P. Puttanna Chetty who has generously come forward to contribute a sum of Rs. 25,000 towards its erection.

(2) A site has to be selected for the dispensary. The question is whether it should be No. 5 as suggested by Mr. Fritchley or No. 2 as settled by the Chief Engineer (Vide accompanying plan).

(3) The location of the Town Hall and Municipal Office at the site indicated and approved by Mr. Fritchley as shown in the accompanying plan and obtaining detailed plans and estimates for the two works from Mr. Fritchley on the terms indicated. Proposal (1) may be approved. The idea of an out-patients' dispensary was started on receipt of the offer of Mr. Puttanna Chetty. Although the cost is now estimated at Rs. 47,000 the whole block may be named after him. Mr. Puttanna Chetty has been Honorary President of the Municipal Council for 4½ years and has fully earned such recognition by the valuable service he has rendered to the City.

As regards proposal (2) the Extraordinary Member and the Chief Engineer are not in favour of Mr. Fritchley's selection. Either Site No. 2 or Site No. 5 will have to be chosen. One of these may be graciously selected by His Highness. I am inclined to agree with the view that Site No. 5 will partly hide the main building.

The proposal to shift the Electrical Power Station may be approved and the site made available for the Town Hall and the Municipal Office. Detailed plans and estimates for the alternative Power Station will be submitted separately for His Highness' sanction. It may take some time to get from Europe

and

and America materials needed for the new Power Station, but the Municipality are willing to wait if there be any delay on this account.

C.S. 139.

Confidential.

Bangalore,

February 1917.

Dear Sir,

With reference to G.O.No.1387-9/ Medl.13-16-9, dated the 17th August '16, I am desired to enquire whether Diwan Bahadur Mr. K.P.Puttanna Chetty's gift of Rs.25,000 will fully meet the necessity for a separate building for the out-patients' Department of the Victoria Hospital.

I am to state that if the necessity for increased accommodation is clearly made out, Government would be prepared to consider any proposals which you may make for additional expenditure not exceeding Rs.10,000.

The submission of the plans and estimates already called for may also be kindly expedited.

Yours sincerely,

The Senior Surgeon in Mysore.

D. O.

CITY MUNICIPAL OFFICE,
BANGALORE.

Dated. 11th August 1917.

My dear Sir

I am in receipt of your kind letter of yesterday and thank you for the same.

There is one point I wish to make clear. The immediate removal of the Power house is not necessary for the construction of the Municipal Office out patients Dispensary and

the General Market. These build
ings may be begun at once
The Town Hall will overlap
a small portion of the Power
house but it may be pushed
a few feet southward and
then it will be clear of the
Powerhouse altogether. In
this case even this building
may be begun at once
So that all that is required
is a decision to remove the
Powerhouse and the time

taken to effect this does not
much matter

If the Library is removed
elsewhere, the Town Hall
may be conveniently shifted
more to the South.

The accompanying block
plan shows Mr Pritchley's
setting in red. Corresponding
to this plan No 2 which
is also herewith sent.

My point is that all the
new Municipal buildings
can be commenced along

of the Powerhouse question is settled we needs wait for the removal of the Power house

If further explanation is necessary I shall be glad to wait upon you

Yours sincerely
K Natarajan

Sir M Visvesvaraya
K C S I
Dewan of Mysore

Issued

Bangalore.

12th August 1917

My dear Mr. Puttanna Chetty,

I duly received your D.O. letter of yesterday together with the plans. I notice on one of the plans that a separate disposition of buildings is indicated by Mr. D'Cruz which seems to make a more imposing setting without shutting out the view of the Victoria Hospital. Perhaps you have discarded the proposal for other sufficient reasons. I shall be obliged if they are briefly indicated.

Every endeavour will be made to get the question of the Power House settled soon. There is one point on which we are both agreed, viz., that no time should be lost in making a beginning. It is better to risk a few mistakes than to keep on thinking and hesitating. I am trying to get matters settled promptly.

The two plans are sent herewith for reference and kind return.

Yours sincerely,

12.8.17

(Dewan)

No D 432.

981/17.8.17.

Resubmitted to the Dewan of Mysore with reference to his orders No. dated the 6th July 1917 on this office No. 147 dated the 30th March 17.

2. I personally inspected the site in company with the Honorary President of the Municipality and the Senior Surgeon and went into the whole question thoroughly. Six alternative sites have been marked on the plan viz. 1, 2, 3, 4, 4a and 5 and a brief descriptive note by Mr.D'Cruz on each of these sites is attached showing the relative merits of each site as discussed by the members present at the meeting noted above.

3. Personally I would choose site No.? as it would not materially reduce the area within the Hospital Compound and would leave the space outside the compound quite in tact for any further city improvement developments which cannot be foreseen at present.

4. Site No.5 marked in red may have its own advantages too; but the most important disadvantage against it is the curtailment of the available space that may be utilised for some

other public purpose when the whole city improvement is developed. This also materially covers the Hospital view from outside from the important fort road, although the view from the Mysore road may be improved if the present rough proposals of the Architect are to be finally approved.

6. Further action will be taken on receipt of approval by Government of any one of these six sites.

Secretary to Government,

Public Works Department.

D. O. No. 5133

My dear Mr. Puttanna Chetty,

I forward herewith a note with enclosures received from the Secretary, Public Works Department, on the question of a site for the out-patients' ward in the Victoria Hospital. I should feel favoured if you would kindly let me know your wishes in the matter.

Plan No 2 is approved but the Resident has obtained immediately for clearing work.

A further note is awaited from the Chief Engineer in regard to the location of the Town Hall and the Municipal Office.

Yours sincerely,

22 8 17 AC

2.4.'17

TO THE DEWAN OF MYSORE
FOR SANCTION.

—o—

As ordered in Government Proceedings No.1387-9/Medl.13-16 dated 17th August 1916, plans and estimates for constructing a new Outpatients' Dispensary in connection with the Victoria Hospital at Bangalore were completed and forwarded to the Senior Surgeon for countersignature.

2. The Senior Surgeon intimates that the project has been submitted by him to Government for orders.

3. The estimate amounts to Rs.46,325, of which Rs.41,750 is for the Dispensary building and Rs.4,575 for a compound wall round the grounds proposed to be added on to the Hospital.

4. Mr.Puttanna Chetty having offered a contribution of Rs 25,000 and being ready to pay up the

GPB—1500—3-10-07

contribution immediately, the favour of early sanction to the estimate is solicited, so that the work may be started at once with that amount. The balance, viz., Rs.21,325, will have to be made available from State Funds next year.

Secretary to Government,

Public Works Department.

Bangalore,

30th March 1917.

Memorandum on the sites proposed for the Out-patients Dispensary to be built in connection with the Victoria Hospital.

The accompanying plan shows the compounds of the Victoria and the Minto Hospitals with the existing buildings therein and the area outside the Victoria Hospital compound and to the north of it, where it is proposed to locate the Town Hall, Municipal Offices and Public Library, and also 5 proposed settings of the Out-patients Dispensary to be built.

There are certain factors in connection with the location of the Out-patients Dispensary that have to be kept in view.

1. There is no space available for locating the Out-patients Dispensary, without crowding the compound of the Hospital, anywhere within the Hospital compound.

2. The extension of the Victoria Hospital towards the north by constructing additional wards is said to be urgently needed as even now, the Senior Surgeon says, patients have to be refused admission owing to want of ward accommodation.

3. The necessity for having a sufficiency of open space and free ventilation for the Main Buildings and Wings especially in front of the Hospital.

4. The position of the Fort Ditch and of the Fort wall on the east of the Hospital.

5. The recent proposal to locate the

Town Hall, Municipal Offices and Public Library in the open area to the north-east of the Hospital compound where the present Transformer House is situated and the necessity to fit in the Out-patients Dispensary with the arrangement of the new Municipal buildings.

6. Maintaining the view of the Main building of the Victoria Hospital unimpaired from the Mysore Road.

7. Administrative and public convenience.

Keeping the above points in view the merits of the various sites of the Out-patients Dispensary shown in plan may be stated as follows:--

Re sites 1 and 2 suggested by the Bangalore Division Executive Engineer and slightly modified, No.1 precludes further extension of the Hospital on the north-west. No.2 admits of extensions to some extent on the north-east but leaves no open space in front. No.3 was suggested with the object (a) of having an open area between the Municipal Offices as proposed, and the dispensary and (b) of having the dispensary at a convenient distance from the market. The remarks re No.2 apply to No.3 except that it is further from the Municipal Offices proposed by Mr. Fritchley.

No.4 shown in dotted pencil lines was the one approved by the Senior Surgeon, the Chief Engineer and the Honorary President of the Municipality before the construction

of the Town Hall and Municipal Offices in the area was thought of. No. 4a is a slight modification of 4 which is over lapped by the proposed Municipal Offices.

No. 4 and 4a are out-side the present compound of the hospital and do not interfere with the contemplated extensions of the wards.

3, 4 and 4a being situated at the gate of the hospital appear convenient for administrative purposes, as patients may be received, examined, attended to and sent away or, if necessary, sent into the hospital as In-patients.

No.5 in red lines is a location suggested by Mr. Fritchley the Architect in conjunction with the location of the Town Hall, Municipal Offices and the Library.

Mr. Fritchley assured the Municipal Officers that the Dispensary as located by him would not interfere with the view of the Victoria Hospital but on the other hand improve its appearance from the Mysore Road.

Executive Engineer,
City Drainage Project,

D. O.

CITY MUNICIPAL OFFICE,
BANGALORE,

Dated 23rd August 1917.

My dear Sir

I beg to acknowledge receipt of your D.O. No. 5133 of 22nd instant regarding the location of the out patient Dispensary of the Victoria Hospital and thank you for the same As you have been so kind as to ask me to express my wishes in the matter I have ventured to state them frankly as follows:

Looking to the present crowded condition of the Victoria Hospital I think the proposed Dispensary should be built, not within the compound of the Hospital, but outside it somewhere near the gate. It is extremely undesirable to crowd the compound in front of the Hospital and thereby curtail the air space etc. for the main building which moreover will require further additions to its wings in the near future. The Dispensary should in my opinion be located not far from the public road and be in a fairly conspicuous and easily accessible position from such road. The proposed site No. 2 would throw it too much into the background and rather far away from the Public Road. Not only would it be inconvenient to the public and the Hospital Authorities, its effect architecturally will be altogether lost

to

to the group of Municipal buildings, Market, Town Hall &c. which will sprung up here. There seems to be an impression that if built on the site originally agreed upon, the building might hide the view of the Victoria Hospital, such an impression is erroneous. The Architect Mr. Fritchley has studied the question and is of opinion that far from hiding the view, it would improve the appearance of the pile of buildings. I concur in this opinion. If necessary Mr. Fritchley may be further consulted in the matter. The Senior Surgeon, the Medical Officer of the Victoria Hospital, the Chief Engineer and myself inspected the spot several times and came to the conclusion that the Dispensary should be located outside the compound wall and in such a way as to harmonise with the General Market and other Municipal buildings proposed to be put up here. Mr. Fritchley deprecated the idea of putting it elsewhere. On public grounds I would recommend its being built in the site originally selected outside the gate, which also coincides with my wish.

The enclosures of your letter are herewith returned with thanks.

I remain, yours sincerely,

M. Visvesvaraya

T. V. Armugam Mudaliar, Esq., M.B., C.M.,

Senior Surgeon with the Government of

H. H. the Maharaja of Mysore, Bangalore.

To

The Secretary to the Government of

H. H. the Maharaja of Mysore,

General Department, Bangalore.

Sir,

With reference to Government order No.1387-9-Med. 13-16-9, dated the 17th August 1916 and your D.O.letter No.c.s.139, dated the 19th February 1917, I have the honor to forward herewith the plan and estimate for the construction of the Out-patients' Dispensary of the Victoria Hospital, received from the Chief Engineer on the 26th instant, and to state as follows.

2. The space provided in the ground plan is intended for separate departments for male and female out-patients, with accommodation in each, for the treatment of general diseases, for diseases of the throat, nose and ear, and for dental surgery and does not admit of anv reduction.

3. The plan got up by the Public Works Department appears suitable, except that it is estimated to cost Rs.46,575, or Rs.21,575 in excess of the amount offered by the donor. If,on the score of want of funds, the cost has to be reduced, the Chief Engineer may kindly be requested to effect the same to the extent fixed by Government, by making any possible alteration in the style of the structure.

I have the honor to be,
Sir,
Your most obedient servant,
